14th Annual Downeast Ophthalmology Symposium

OCTOBER 2-4, 2015

Harborside Hotel & Marina
BAR HARBOR, MAINE

Presented by the Maine Society of Eye Physicians and Surgeons “The Eye MDs”

www.maineeyemds.com

CME: 15.00
Category 1 Credits
The Jackson Laboratory

The Jackson Laboratory is an independent, nonprofit biomedical research institution and National Cancer Institute-designated Cancer Center with more than 1,400 employees. Headquartered in Bar Harbor, Maine, its mission is to discover precise genomic solutions for disease and empower the global biomedical community in the shared quest to improve human health.

A visit to the Jackson Laboratory will be available for attendees on Friday morning, 10/2 at 8:00 a.m. Please register on the conference registration form if you plan to attend.

Harborside Hotel & Marina

The Harborside Hotel, Spa & Marina is the premier resort facility in Bar Harbor, Maine. Nestled in downtown Bar Harbor, and just moments away from Acadia National Park. The Harborside offers breathtaking views of Frenchman’s Bay and ocean beyond. Guests can enjoy the Spa amenities of the adjacent Bar Harbor Club.

Acadia National Park and the city of Bar Harbor have a long and storied history as a vacation getaway. Native Americans had been summering in the Acadia region for hundreds of years before the area was discovered by Champlain in 1604. By the mid 1800’s, Bar Harbor had become the premier resort destination for “rusticators” - Victorian men and women of wealth and influence who came to Mount Desert Island to escape the heat and bustle of the (pre-air conditioning!) big cities up and down the Eastern Seaboard.

Today Bar Harbor remains a popular summer vacation destination with many shops, restaurants, artisans and family activities, and Acadia National Park, one of the most visited National Parks in the U.S.
