Program Objectives:

a) Identify the causes of anosmia.
b) Identify the causes of dysgeusia.
c) Demonstrate the diagnostic workup and aid in appropriate treatment selections for patients with smell and taste disorders.
d) Explain appropriate management of patients with burning mouth syndrome.
3) Distinguish the impact that chronic sinusitis has on patients with smell disturbances.

Program Overview:

Taste and smell disorders are commonly encountered by Otolaryngologists. The basic workups for these problems are familiar to most, however, there are newer concepts and treatment options which must be considered and offered to optimize the care of our patients. Attendees of this program will develop a greater understanding of the most appropriate approach to treat patients with anosmia and dysgeusia, as well as burning mouth syndrome. The impact that chronic sinusitis plays on smell disorders/anosmia will be discussed. A panel discussion will reinforce key diagnostic and management issues in the care of patients with smell and taste disorders.

CME Information:

The New England Otolaryngological Society designates this live activity for a maximum of 6.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The New England Otolaryngological Society is accredited by the Massachusetts Medical Society to provide continuing medical education for physicians.

Laryngology Update
TASTE AND SMELL -- DYSGEUSIA? ANOSMIA? WHAT NEXT?

7:35-7:55  Registration
7:55-8:00  Welcome
Ken Yanagisawa, MD, FACS
President, New England Otolaryngological Society
President, CT ENT Society
Assistant Clinical Professor of Surgery – Yale University
School of Medicine

8:00-8:15  Harvard Medical School - Allan Lam, MD
The Glossopharyngeal Nerve, Contributions to Taste

8:15-8:30  Tufts University School of Medicine – Victor Chung, MD
Dysgeusia in Cochlear Implantation

8:30-8:45  Boston University – Joseph DiPietro, MD
Isolated Olfactory Cleft Polyps: An Uncommon Cause
of Dysosmia

8:45-9:30  Otitis Media and Tonsillectomy: Effects on Taste and
Weight Gain
Linda Bartoshuk, PhD
Professor, Department of Community Dentistry and
Behavior Sciences
Director of Human Research, Center for Smell and Taste
University of Florida, Gainesville, FL

9:30-10:05  Smell Loss: What's the Science Behind the Disorder?
Eric Holbrook, MD, Assistant Professor of Otolaryngology
and Laryngology, Harvard Medical School

10:05-10:30  Break

10:30-10:45  University of Connecticut – Kyle Johnson, MD
Post-Tonsillectomy Dysgeusia

10:45-11:00  Yale University - Boris Paskhover, MD
Anosmia: The Story of Zicam

11:00-11:15  Albany Medical College – Adam Weisstuch, MD
Congenital Anosmia: Living as an Otolaryngologist
Without a Sense of Smell

11:15-12:00  Cleaning the Air: Can We Treat Anosmia?
Donald Leopold, MD, FACS
Professor, University of Vermont College of Medicine

12:00-1:00  LUNCH
Business Meeting - Announcements

1:00-1:10  Dartmouth Medical College – Courtney A. Hill, MD
Radiation-Induced Dysgeusia: A Clinical Conundrum
with Quality of Life Consequences

1:10-1:25  University of Vermont – Christie Barnes, MD
Distorted Sense of Smell

1:25-1:40  Burning Mouth Syndrome: A Central Oral Burn Phantom
Induced by Taste Damage
Linda Bartoshuk, PhD

1:40-2:25  Break

2:25-2:40  Chronic Sinusitis and Anosmia
R. Peter Manes, MD, FACS
Assistant Professor of Surgery (Otolaryngology)
Yale University School of Medicine

2:40-3:05  Panel Discussion - Taste and Smell Disorders
Eugenia Vining, MD, FACS (Moderator), Assistant Clinical Professor
of Surgery, Yale Univ School of Medicine
- Donald Leopold, MD, FACS
- Eric Holbrook, MD
- Linda Bartoshuk, PhD

3:05 – 3:50  Questions and Concluding Remarks

3:50-4:00  Adjourn
